PETER HENDERSON & CO.

HENDERSON'S

"High Grade"

IF YOU WISH

BULBS

SAVE MONEY,

Send in your Order for Bulbs **NOW.**

Orders placed with us early enable us to estimate our requirements more closely, and by including your order with ours, for importation, we can afford to sell you at lower rates than in the Autumn, for the reason that when importing on a certainty, we take less risk in having a surplus left.

REMEMBER

You have everything to gain and nothing to lose by placing your order with us now, for should anything be offered by us lower before shipment, we will give you the benefit of the lower rate.

A FEW OF THE

TESTIMONIALS

Our Bulbs receive from Florists.

Your bulbs received yesterday They are a very fine lot and we are satisfied beyond measure with them.

The bulbs I received from you such as Bermuda Lilies, Lily of the Valley, etc., have done splendidly; they were first class.

The bulbs I got of you last year were very satisfactory, especially the Harrisii which were the finest I ever saw.

The Bermuda Lily bulbs ordered have been received. They are very fine specimens and certainly ought of produce fine b oom.

The bulbs I purchased from you last fall exceed anything I have ever had for size and beauty.

Last year's bulbs were a great success so I am ordering more.

Bulbs just received They beat anything we ever saw in the bulb line.

I promise here to order bulbs again this fall. Those ordered of you heretofore have always been admirable and done

Received the bulbs yesterday. Are the best bulbs I have ever saw.

We see from the style of bloom that you have a fine strain of Lily of the Valley, and you may book us for 30,000 pips for iall delivery.

THE PRICES OF OUR BULBS

Include-

Packing and Cartage and placing free on board cars or boat in New York.

Remember in Comparing Prices, you have no duty, ocean freight from Europe, custom house nor brokerage expenses to pay.

We Reserve the Right to Advance Prices on any Bulbs, Roots, Plants or Seeds—before acceptance of order—should crop prospects, injury in transit, indicate a serious shortage or any unusual conditions prevail.

TERMS.

To parties of approved credit, accounts are payable net on June 1st and December 1st for goods invoiced between these dates, or 5 per cent can be deducted for payment within 30 days from date of invoice, or for remittance with the order.

. . . .

We Deliver all Bulbs and Roots — Properly packed and in good condition—into the hands of transportation companies. After that our responsibility ceases. Consignee then assumes all risks of heating, freezing and delays.—P. H. & Co.

. . . .

SPECIAL NOTICE.—When you order, please state if you wish your bulbs to be shipped as they are ready, or if we shall hold and make one or more shipments. In absense of contrary instructions, we forward the "Early Bulbs" as soon as they are ready—we term this our "August Shipment"—this would include Liliums Harrissii and Candidums, Freesias, Roman and other French Hyacinths, Paper White and Double Roman Narcissus, Ornithogalum, Anemones forcing, Alliums and Callas.

Our "September Shipment" includes the general line of Dutch bulbs, such as Hyacinths. Tulips, Narcissus, Crocus, etc., etc.

Our "November Shipment" includes Lily of the Valley, Spirea, Gladiolus, Tuberoses, Pæonias, Amaryllis, the late Lilies, etc., etc. A FEW OF THE

TESTIMONIALS

Our Bulbs recdive from Florists.

Highly satisfactory were the Ha:issiis re-eived from you. We also had some from—but the comparison was much in favor of yours in fact we selected from your 500 5 to 7's as many as 150 bulbs as goods as the 7 to 9's of Mr.—and their was a correspondence excellence in your 7 to 9's.

Your Tulips and Hyaeinths are A 1.

We have a very low offer from Chicago, bot have always found your bulbs enough better than theirs to more than cover extre freight.

The Roman Hyacinths you sent me last fall forced grand.

Please book me for the following bulbs, those supplied by you last season were the best I had.

The bulbs we got of you last year turned out to be first class and all extra fine.

For two years past I have had most excellent success with your bulbs. My Easter Lilies were exceptionally fine.

Enclosed find my order for bulbs for fall delivery. I have not yet received your prices, but I know you will do the best by me you can. The bulbs you sent me last season have turned out very satisfactory.

The freesias you sent me last fall were most satisfactory, they forced splendidly.

The bulbs I received from you last fall were first class. The Bermuda Lilies and Romans have done splendidly.

My bulbs you sent last fall were the best in the city. Mr. ——got his bulbs from Chicago, and they were almost a failure.

"While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, we do not give any warranty express or implied. If the purchaser does not accept the goods on these conditions, they must be returned at once and the money that has been paid for same will be refunded. —P. H. & CO.

HYACINTHS. Dutch or Holland. Named.

Those prefixed with a * are the earliest flowering.

Our "First Size Bulbs" are all selected picked fancy; those offered as "Second Size" are often sent out as First Size bulbs by some dealers. They are really good bulbs, averaging 7 inches in circumference, with the exception of three or four small bulbing varieties. For forcing for cut-flowers and fine bedding they will give better satisfaction than mixed Hyacinths at but little advance in price.

Where purchases are made "Ex-Dock," etc., you may be liable for extra charges including duty.

FREESIA REFRACTA ALBA.

(Ready for Shipment in July)

We will have a large crop of extra fine bulbs to offer this season. We now sell annually 1,000,000 of these bulbs to florists for forcing for cut flowers, our bulbs being unusually fine. Freesias produce six to eight flowers upon a stem. Are very handsome, possessing a peculiar grace of form. As cut flowers, they are extremely valuable; the unexpanded flowers open in water, fill the air with a most delicate perfume, and their endurance is really remarkable. They force very easily and should be started in succession from the end of July. Flowers pure white, with yellow blotch on lower petals. (See cut.)

SPANISH IRIS

FOR FORCING.

THESE almost equal orchids in beauty of coloring and delicacy of perfume—the flowers are of great beauty and cut in the bud state, last from one to two weeks in bloom—longer than any other cut Iris. One root bears one stem bearing two flowers in succession a week apart; the faded flower does not show a mark on the stem when removed. All growers of cut flowers should try these this season; they are low priced, and if planted in boxes and placed in cold frames until they show bud, then bring into heat they can be had in bloom from March on, and will give great satisfaction.

The Prices in this Catalogue are based on bulbs coming in free. We are taking the risk of losing any duty that may be placed on bulbs, etc., under the new tariff bill, and may have have to decline further orders at these prices—when we learn what and when duty will be exacted

HENDERSON'S

---: Large Flowering :-

LILY OF THE VALLEY PIPS.

To make a complete success of forcing Lily of the Valley, it is absolutely necessary to have pips that have been grown in a soil and climate congenial to their proper development; there are many pips annually offered that are late flowering, and having tew and small bells, are absolutely worthless for forcing. The past winter we had a complete trial of pips from English, Danish, French and Dutch, as well as from all German growers of repute, and we were pleased to see that Henderson's Large Flowering Hamburg Pips were by far the best. Producing robust long

spikes of 11, 13 and 15 large bells each.

SPIREA

Astilboides Floribunda.

THIS new variety is a great improvement over Spirea Japonica. The flowers are borne in large, feathery panicles of purest white, and last a long time in bloom. It is dwarfer in habit, earlier and more profuse in bloom. This is undoubtedly one of the most beautiful and graceful subjects grown, its foliage and flowers combined making it one of the finest gems for winter and spring decoration in the house and conservatory, while for grace and elegance as a cut flower it is unequalled. The few florists who have tried it are enthusiastic in its praise.

See prices below.)

SPIREA ASTILBOIDES FLORIBUNDA.

MISCELLANEOUS BULBS AND ROOTS,-Continued.

Henderson's "High Grade" Bulbs

OF TRUE BERMUDA EASTER LILY. Lilium Harrisii.

In soliciting early orders from the European Trade for the BERMUDA EASTER LILY, we wish to lay particular stress upon the size and quality of our Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating. Experience having shown us that bulbs so treated are incomparably superior to bulbs grown on impoverished and unfertilized land year after year, which constitutionally weakens the bulbs and they give results accordingly. This is the general practice—especially among those who endeavor to grow cheaply—to enable them to undersell.

Our Stock is True and Unmixed. Our strict se-lection for years secures true and unmixed stock. Growers cannot afford to force stock mixed with Longiflorums, even though the bulbs were given to them, as they would flower so irregularly as to oc-cupy a bench the whole winter.

SPECIAL NOTICE

A Plea For Later Delivery and Better Ripened Bulbs.

Most of our customers insist on early delivery.—
Early in July or often. It is a mistake! To reach enstomers at that time, bulbs must be dug and cured the last of June, and they are then apt to be white, sappy, immature, will shrink, and will not keep, ship nor flower nearly as well, as bulbs dug a month later, at which time they are thoroughly ripened, plump solid and yellow, and will give correspondingly better results and force into bloom nearly if not fully as early as immature bulbs planted three or four weeks sooner.

Remember, we can ship bulbs as early as any one, but we earnestly advise that if you can wait until the later part of August for your bulbs to do so. Send your orders in at once and state whether you prefer early or late dug bulbs, that we can guage the quantity of bulbs to be left in the ground for late digging.

BERMUDA GROWN BULBS.

Versus those Grown in Africa and other Countries.

The Bermuda Easter Lily is a geographical variety of Longiflorum which has been produced by the peculiarly congenial climate and soil of the island of Bermuda. The efforts to produce and propagate it in other countries have proved that it then loses its 'distinguishing and marvellous merits of earliness and profusion of bloom—and the ease with which it can be bloomed at any particular period—therefore for best results be sure and get Henderson's "High Grade" TRUE Bermuda Easter Lily Bullbs. TRUE Bermuda Easter Lily Bulbs.

The Grandest Winter-Flowering Plant in Cultivation. . .

The TRUE Bermuda Easter Lily is our Great Specialty. We were the pioneer introducers of it and have always been "Headquarters," supplying the trade generally and the large dealers both in Europe and America.

This Peerless Lily is the greatest acquisition to floriculture made in many years. The remarkably short time required to bring them into flower, and the certainty to produce a profusion of bloom, and also the ease with which they can be made to flower at any desired period, such as Christmas, Easter and other special occasions, render them invaluable. render them invaluable.

The Flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they are open, or partially open, they can be kept two weeks.

A Short Time only is required to bring them into bloom. Bulbs potted in August or September can be had in flower in December

Succession of Bloom can be kept up from December to May by bringing the pots of bulbs in from cold frames at intervals throughout the winter.

The quantity of bloom produced is Marvellous; the average production of bulbs 5 to 7 inches in circumference, even when forced, is from 5 to 8 flowers, and of bulbs 7 to 9 inches, 8 to 12 flowers; and, if desired, a second crop of flowers, frequently equal to the first, can be secured the same season by drying the plants off after blooming for a time and then starting them

Blooming Plants in Pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful nor more highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose pose.

As a Garden Lily it is of great beauty, being entirely hardy, excepting in the northern climates where it requires a protection of leaves or litter to the depth of 5 or 6 inches.

TRADE PRICES OF "HENDERSON'S TRUE BERMUDA EASTER LILY BULBS.

SIZE OF BULBS.	Per doz.	Per 100.	Per 1000.	THE BEST SIZES TO GROW.
Second Size Bulbs. (5 to 7 inches in circumference.)	\$0.35	\$2.25	\$20.00	The best for "Earliest" forcing and particularly for cutting with long stems. Bulbs should produce from 5 to 8 flowers.
First Size Bulbs. (7 to 9 inches in circumference.)	\$0.65	\$4.50	\$40.00	This is the most popular size to grow as pot plants for decoration, and equally as valuable for cutting. Bulbs should produce 8 to 12 flowers.
Extra Size Bulbs.	\$1.25	\$8.50	\$80.00	These extra bulbs are usually grown for specimens in pots. Each bulb should produce from 12 to 18 flowers.
Mammoth Bulbs. (11 to 14 inches in circumference.)	\$3.50	\$25.00		These mammoth bulbs make fine specimens for exhibition and decoration. As many as a hundred flowers have been produced from one bulb.
